WOMEN BRAVE FLAMES TO SAVE SCORES FROM DEATH

WITHDRAWALS BROKE LAW WITNESS ASSERTS

Chief Engineer Davis on Stand to Corroborate Pinchot and Garfield. SAYS BALLINGER OFTEN GAVE VERBAL ORDERS He Testified Lands Had Been Reserved for Water Power Sites.

WASHINGTON, March 11.—Arthur F. Davis, chief engineer of the reclamation service testified before the Ballinger-Pinchot investigating committee today that in preparing lists of lands to be reserved to the public domain by Secretary Pinchot he felt he was acting under mandatory orders from the Secretary.

These lands had been withdrawn, the witness said, by former Secretary Garfield for conservation of water power sites. Mr. Ballinger, according to Mr. Davis repeatedly gave verbal orders that the lands so withdrawn should be prepared for restoration and that their withdrawal had been in direct violation of the law and could not be sustained. No written orders, however, were ever issued.

Mr. Davis is before the committee on a summons issued by counsel for Clifford Pinchot.

ENGAGE IN DISCUSSION. Just before the adjournment of the committee yesterday afternoon, the members engaged in a discussion as to whether or not the statutes regarding reclamation would cover the case of Clarence Cunningham, which includes the statement by him on May 5, 1908, reiterated on September 3, 1908, that the Cunningham-Sandwich land interest directly or indirectly in the Cunningham group of coal land claims in Alaska.

A hearing before the Senate committee on territories recently developed the fact that an option of the Cunningham-Sandwich land interest was not approved by the Senate on September 3, 1908, was left with Secretary Garfield by Mr. Ballinger.

When today's session began Attorney Brandeis said he desired to call the committee's attention to the revised statutes regarding reclamation and to the fact that the Cunningham-Sandwich land interest was not approved by the Senate on September 3, 1908, was left with Secretary Garfield by Mr. Ballinger.

WHAT WILL HAPPEN IF COST OF BABIES CONTINUES TO RISE?

If the price of babies continues to rise, won't it soon cost so much to have them, that there won't be any money left to pay dues in Mothers' clubs, and if we are going to have to do away with these entertaining organizations, why—what's the use?—Woman's Chorus.

It is hard to explain the increased expense of bearing children, which now exists. It seems to be the result of the general upward financial trend—Dr. W. W. Lewis.

The fact that it costs more to have children than it used to doesn't seem to have affected the annual crop. After all, one is given plenty of warning, and it is possible to accumulate an expense fund before the all important day arrives—Dr. Effie W. Baile.

JAIL CASHIER FOR ALLEGED THEFT OF \$6000

John E. Neal Is Arrested in San Francisco on a Charge of Embezzlement.

EMPLOYED FOR YEAR BY SUNSET COMPANY Secretary of Lumber Concern Makes Complaint—Now in Police Headquarters.

John E. Neal, who was for a year and a half cashier for the Sunset Lumber Company of this city, is a prisoner at police headquarters this afternoon and is charged with a felony embezzlement.

The complaint upon which the man was arrested was sworn to by V. H. Nash, secretary of the company, and alleges a series of peculations running from \$5000 to \$6000 and covering a period of about a year.

Neal was arrested in San Francisco late this afternoon on Battery Park by J. J. Callenden superintendent of the Morse patrol. As soon as he was taken into custody and the proper procedure was made in that city Neal was brought to headquarters in Oakland and is now being treated by the detectives.

REFUSE INFORMATION. At the offices of the company this afternoon all information was refused by the officials as to the charges and they declined to give details at the time beyond admitting that formal charges had been made and that the peculations were in small sums and covering a long period of time.

Neal came to the Sunset Lumber Company well recommended and has a host of friends in the city. He is forty-three years old and has a family consisting of a wife and child, who live at No. 655 Tenth street. He has made a partial denial of the charge to the police. Statements will be given out at the completion of the police investigation.

STORK TRUST SOCIETY GIRL RAISES THE COST OF INFANTS

Cradles Will Go Empty Unless Combine Is Broken, Fear Economists.

PROSPECTIVE PARENTS WARNED TO SAVE UP The Scale of Prices Make Youngsters a Luxury Which Few Can Afford.

If you have been looking about the increased price of living and bemoaning the financial outlook now necessary for the most necessities of existence, put your foot on the softest pedal you can find because—from now on its going to cost a small fortune just to be born.

The last word is—a baby trust! Think of that! No perfectly self-respecting stork will deliver a youngster these days under from \$50 to \$100, where heretofore that long-legged bird has been accustomed to drop them into waiting houses for the nominal sum of \$15 or \$20. Then after they get here the tiny visitors from Fairyland, acting under instructions from the moderated Babies' Union, now demand a trained nurse for two weeks at least, another \$50 outlay, and anything that is left in the bank must be expended on sterilized milk and various other antiseptic food compounds at \$1 an ounce.

Ten years ago an initiation fee, including a book, which landed you on each cost \$15, with a few dollars extra for the services of a white-capped conductress, but now, alas, the stork society has become a reception committee for the new member demands three times that fee and he doesn't promise that you are going to be up to qualifications at that.

Friends of babyhood are up in arms and mothers' clubs are fuming because if they keep on having little charges about which they hold innumerable weekly meetings—why, there won't be any money left with which to pay club dues, can't you see?

It's a blow to the infant industry which ex-President Roosevelt launched during his eight strenuous years at the capital, and as such it ought to be a matter for national legislation. Nobody blames the physician, for he is going to pay his own bills, must charge higher rates. Where he used to arrive in the stills night in his trusty old "one horse shay" he is now obliged to chug-chug up to the prospecting nurse in a big red automobile which goes right on consuming gasoline all the time he is inside.

NEW METHOD SAFER. Then, again, the new methods for rearing the little newcomer are much safer than of old—and it is impossible to get away from the subject—more costly.

The fear for officiating at childbirth has increased alarmingly during the past ten years, asserts Dr. Effie W. Baile, one of Berkeley's most prominent women physicians. "And the official doesn't seem to be going to the doctor, either. I think it is because everything is so much more expensive than it was a few years ago. The fact doesn't seem to be affecting the yearly crop in Berkeley, however, and after all, one has plenty of warning and can save up."

CIRCUMSTANCES TO BLAME. Dr. F. R. Nelson, Alameda, says "Ten years ago bringing babies into the world seemed to be neither so solemn nor so expensive a rite as it has recently grown to be. The price has increased materially, but it is impossible to say just what is responsible for this. It seems to be a combination of circumstances."

SOCIETY GIRL FIGHTS WITH MAN IN DARK

Miss Marion Davis Bravely Ejects Intruder From Her Home.

SUPPOSED BURGLAR IN REALITY BROTHER-IN-LAW Forced Way Into House to Spy Upon His Estranged Wife.

A hand to hand encounter which culminated in a fierce battle between a supposed burglar and a young and prominent society girl of this city and a wild alarm that stirred the police to activity and threw a cordon of officers about the home of Mrs. L. Davis at 1214 Webster street, were the results of the attempt last night of Walter R. Moody, a well known manhandling book operator about the bay cities, to gather evidence against his wife which he might use in a suit for divorce.

The battle took place between Moody and his sister-in-law, Miss Marion Davis, after the former had succeeded in getting into the room of the Davis home open and forced his way into the kitchen of the house. The house of his entrance was heard at least, another \$50 outlay, and anything that is left in the bank must be expended on sterilized milk and various other antiseptic food compounds at \$1 an ounce.

Rushing to the rear of the house Miss Davis found that the kitchen door stood open about two inches. She bravely ran to the door and slammed it closed, only to have it open again in her face and the arm of a man grasping an electric club thrust through the opening. Her efforts at again closing the door were fruitless and the man finally gained his way into the room. In the darkness Miss Davis could not recognize Moody in the hold house-breaker and she immediately, with a thought of personal safety, threw herself upon him, repeatedly slapping his face. In the fight Moody grasped the throat of the girl, threw her back on the kitchen table and tearing himself loose from her grasp ran from the house into the darkness.

POLICE SURROUND HOUSE. The battle had been heard by the other occupants of the house and a telephone call was sent in to the police. Police-man 311 and Captain Rock, accompanied by three other policemen, jumped into an automobile and sped for the scene of the disturbance.

At this time Miss Davis did not know who her assailant was and the police surrounded the house. An examination of the premises was made and the hat and coat of the supposed burglar were found under the front steps. Miss Davis having been given all aid possible to relieve her following her breakdown on the escape of the man, Captain Rock returned to the police station with the police. The man, who had been in the house, was found in the effort to gather evidence against his wife for use in a suit for divorce. He said that he had tried to force his way into the house so that he could reach the bedroom of his wife.

COUPLE SEPARATED. It has been learned that Moody and his wife have not been living together for sometime but other than this the family will tell nothing.

Miss Davis answered the door, this morning and positively refused to grant an interview on the stirring affairs of the night before. She also refused to allow Miss Davis or Mrs. Moody to be seen.

MISS MARIE FENNER, who, cut off by flames from escaping by stairway, was attempting to leap from a window in one of the burning buildings, but was prevented by Fireman James Herby, who, scrambling along a narrow sill, caught hold of her, and, while his comrades spread a net below, threw her into it, then following himself in midair for a moment, then dropped into the net. Both Miss Fenner and Policeman Herby were slightly injured.

Victims of James Patten Take Sweet Revenge When He Pays Visit. Successor to Allds Elected After Unusually Heated Struggle.

LONDON, March 11.—James A. Patten, the Chicago speculator, who came to England, as he said, "to look around" had occasion to look sharply today from the moment he appeared on the floor of the cotton exchange at Manchester. His appearance was the signal for a hostile demonstration which resulted in his forcible ejection from the exchange and a flight through the streets from a mob that was prevented only by the police from doing him serious harm.

Patten's coming to Manchester had been widely heralded since his arrival in Liverpool and the reception was ready for him. There are persons in Manchester who were squeezed in the Patten race in the price of cotton last year, and they have neither forgotten nor forgiven the man who at times has forced the price of cotton and grain to new figures.

SIX INJURED WHEN FIRE MENACES BLOCK

Five Buildings Destroyed and Many Are Left Without Homes.

SPONTANEOUS COMBUSTION BLAMED FOR THE BLAZE Scores Were Saved By Heroic Work of Firemen and the Police.

SAN FRANCISCO, March 11. Fifty families were rendered temporarily homeless, four lodging houses and three stores were gutted, six people, including two women, were injured and damage to the extent of approximately \$80,000 was sustained in a disastrous, but spectacular fire which broke out shortly after 4 o'clock this morning in the basement of the Hayes Valley Rooming House at 515 Octavia street.

Whether or not the blaze was of incendiary origin is being carefully investigated by Fire Marshal Towne, co-operating with the Police Department.

The strongest theory is that of spontaneous combustion, but several suspicious circumstances which might point to a fire bug are being looked into. The injured are: MISS MARIE FENNER, 31 Miller, 514 Hayes street, sprain of the back and the right foot, lacerations and contusions, and hysteria. MRS. ANNIE McISAAC, 41 Linden avenue, hysteria. JAMES HERRICK, fireman, engine 34, 15th and Hayes streets, lacerated chin, contusions and abrasions. THOMAS GALLAGHER, fireman, man lacerated wound of the chin and right hand. A. KELLY, fireman, bruises and cuts from falling glass. UNKNOWN MAN, unconscious, taken in automobile from the scene of the fire, and identity not yet learned.

J. KING reported missing by his wife who was unable to find him during the progress of the fire.

Buildings Affected. Hayes Valley rooming house, 515 Octavia street, completely gutted, damage by smoke and water. Residence of Dr. C. H. Cummings, 503 Octavia street, damage from fire and water. Lodging houses at 507 Octavia, 514 Hayes, and the Elm House, 518 Hayes street, damaged by smoke, fire and water. Grocery firm of West, Elliott & Gordon, entire stock damaged by smoke and water, rear of store burned. Bakery of J. Berndt, 516 Hayes street, stock damaged by smoke and water, partly gutted by flames. Restaurant of Javan Bros., 512 Hayes street, damaged by fire, smoke and water. The conflagration started in the basement underneath the apartments of Mrs. A. Peck, in the Hayes Valley lodging house, and may have originated in a pile of refuse accumulated by Louis Lanauakas, the proprietor, who had been ordered by the Board of Health to clear out the place. The nature of the blaze, however, gives a slight hint of incendiarism, and the police are not altogether satisfied with the theory of the accident.

"Why did you marry me?"

The question was popped with the

suddenness of an explosion. Miss Good-

rich stood a moment as if reflecting her

cheek's burning from the briskness of a

spin in her automobile.

The eyes of the young woman sparkled

merely.

"Just for your own dear self, Nat."

she breathed "and yes because you

It was dinner time. Gracefully out-

lining a courtesy of the First Empire

Miss Goodrich announced to her lord that

Monday was her day and the cross ex-

amination was ended.

Mr. Goodwin will publish many of his

epigrams.

It was thirty-three years ago that Nat

Goodwin, a storekeeper, came to conduct

business in the city of San Francisco.

He was first demonstrated. How old he

was then cannot be positive—but he was

then a beautiful man. If one chin is more

beautiful than three, he was accordingly

more beautiful than now.

ENTER BEAUTY NO. 1

At this period he acted as satisfactorily

as Tony Pastor's vaudeville hall. At

within a month his salary jumped from

\$5 to \$10 per week. The latter figure

made it possible for him to look about—

to circulate a bit where beauty had his

haunts.

One of these haunts was Nibbs' Gar-

den New York. The Black Crook

with its platoon of beauties had just

made way there for "The Edison

Blondes—all beauties. But most beau-

tiful among them a most talented and

entertaining (in people of the stage declare

to this day) was Edna Goodrich.

Edna Goodrich was "the toast of

the town." Great men—beautiful men—

were eager to be related by her charms.

Let the romances begin. Then came

the most beautiful but beautiful not beautiful

and let Eliza Weatherly, New York's reigning stage beauty,

to the marriage altar.

She lived to see Nat Goodwin in the

way becoming a great

comedian. She died in 1887 and was sincerely

mourned by all who knew her.

In Buffalo, N. Y. there was quite a

stunning beauty, Mrs. Nella Pease

who, as well to the physician Dr.

Pease, while perhaps not exactly beau-

tiful certainly was a handsome man,

and amply able and willing to provide

generously for his beautiful wife. Their

union in society was excellent.

Suddenly Buffalo society marveled

at the news that Dr. and Mrs. Pease were

becoming divorced from each other. If

they were amazed not long afterward

when this beauty became Mrs.

Nat Goodwin No. 2. They did not

Later they quarreled because of his

potent influence over other beauties.

She divorced him in 1891.

At the time Nat Goodwin was divorced

from Beauty No. 2 Beauty No. 3—so far

as generally known—had not yet ap-

peared on his horizon. Maxine Elliott—Mrs.

George A. McDermott, whose husband

was a lawyer and mayor's marshal under

Mayor Grace—was slowly winning

her way as an actress, against her hus-

band's wishes.

They had accordingly separated.

AND NO 3—MAXINE ELLIOTT

Goodwin was about to sail to fill an

engagement in Australia. He expected

to play in "The Prisoner of Zenda,"

needed a leading woman of excep-

tional beauty and charm for the hero-

ine. Maxine Elliott was found to meet

easily those specifications. She sailed

away with the rest of the company.

While being feted by British royalty

Beauty No. 4 appeared in the "The

show girl named Edna Goodrich

was suddenly raised to the height of

Nat Goodwin's leading lady. Those who

came to the theater to scoff remained

if not to pray to gaze at that lead-

ing lady's loveliness.

Then followed the hunt back and

forth over seas of the comedian for

Beauty No. 4. Finally in 1908 Good-

win divorced Mrs. Elliott. He married

Miss Goodrich in Boston on November

8, 1908.

MEGGENSON HEIR TO ESTATE OF MRS. GRAHAM

Former Oakland Real Estate Broker Is Named as the Sole Beneficiary.

MOTHER AND SISTER EXPECTED TO CONTEST

Dead Woman Disclaimed the Undue Control Alleged by Her Relatives.

SAN FRANCISCO, March 11.—What will be a bitterly contested will was filed this morning by Lawrence M. Meggenson, formerly a real estate broker of Oakland, who is named sole heir to the estate of Mrs. Francis J. Graham, for which the latter's father-in-law yesterday applied for letters of administration. Mrs. Graham, who resided at 313 Shotwell street, died last Saturday and unknown to her relatives handled her will to Meggenson, who has been her life-long friend. Her family knew nothing of this and in this position of letter yesterday she alleged that there had been no will. Mrs. Graham in her testament cuts off her aged mother, Mrs. Mary S. Knoll, 70 years old, and her sister Alice J. Leigh.

The property is valued at about \$15,000 and in her will Mrs. Graham bequeaths in part as follows:

NOT INFLUENCED
I desire it to be distinctly understood that I have been under no undue influence or coercion in making this will, and that I am of sound mind and memory, and that I am not influenced by any person or persons.

Had my brother Fred A. Corning lived he would have been sole heir, but I have decided to leave my property to my friend, Lawrence M. Meggenson, who has been my life-long friend.

I have known for some time that my friend, Lawrence M. Meggenson, has been my life-long friend, and I have decided to leave my property to him.

Mrs. Meggenson admits a conveyance of land at 313 Shotwell street to her mother and an agreement to take care of her mother, which it is understood to be a deed by Meggenson.

Picture Transfer Outfits Half-Price on Children's Day

5000 CHILDREN EXPECTED

We want all the children to come to this store tomorrow. There is no amusement for little folks—for older folks, too—that is more entertaining and useful than the transferring of all kinds of pictures from newspapers and other printed matter onto material which makes them ornamental and useful.

Tomorrow—Children's Day—the demonstrator will sell a complete transfer outfit at half price—25c.

A MARVELOUS OFFER

All the colored pictures in the supplements of the Sunday papers can be made to furnish the most elegant decorations for pillow tops, tally cards, post cards ornamenting walls and for every purpose for which a printed picture can be used.

This marvelous fluid, which a child can use with perfect satisfaction after a minute's tuition is sufficient to transfer all the pictures that will be published in all the newspapers on Sunday morning.

TEN DOLLARS' WORTH OF VALUE

Come and see how it is done, then you will find that you will get ten dollars' worth of actual value out of your 25-cent purchase.

In some cities where this marvelous transfer outfit has been demonstrated as many as one thousand outfits have been sold to children in one day at the half price rate of 25c.

Come and see it tomorrow and you will admit that it is the greatest amount of satisfaction ever offered you for 25 cents.

Timely Talks on Watches

The Happiest Day of His Life

The sale of first-class timekeepers is an important feature of our business, and the reason we are having such large sales in this line is owing to the fact that we sell strictly first-class WATCHES at extremely low prices. We never misrepresent our goods, but will at all times sell you an honest WATCH at a close price and guarantee to give you full value for your money.

Another policy of our business—one of the most important in the selling of WATCHES is the fact that every WATCH and movement that is sold over our counters is delivered to the buyer in the same original case in which it comes to us from the manufacturer. We do not handle second-hand watches of any kind. This is a strong protection to the customer.

We have in stock now a beautiful line of ladies' and gentlemen's fine Watches, which it will be a pleasure to show you if you will call. We ask your inspection of the fine line of thin case Watches we are showing, specially priced at \$9.00.

NEARLY PULLED THE BABY IN TWO

Children Suffered as the Center Tug in Strife Between Parents.

Daly Goodwin was the chief sufferer in the domestic discord that raged between the parents and resulted in the interlocutory divorce decree that went on record this morning as having been rendered by Superior Judge T. W. Harris.

In one of these disputes between the husband and wife, according to the testimony of the wife, Mrs. Rilla A. Goodwin, her husband (Daly) Goodwin was so determined to secure the custody of his rights to the possession of the infant child that he resorted to the use of force to wrench it from her arms. In one of these disputes the husband pulled the baby in two.

The other child suffered in like proportion according to its age and on one occasion the baby to the family name had one arm clung to by the mother while his sister tugged at the other in the endeavor to get him away from the other parent.

The husband called the wife bad names and on one occasion he choked her and left black marks around her throat. The couple were married in Kansas city and have lived in Oakland during the past six years. Each of the separate parents was given the custody of one of the two children.

GRABBERS OF LAND INDICTED IN OREGON

Railway Officials Accused of Fraudulent Entries on Public Domain.

UNDER VIGILANCE FOR OVER TEN YEARS

Special Agent Goode Finds Evidence That Makes Action.

PORTLAND, Or., March 11.—The indictment against officials of the Sumner Valley Railway and the Oregon Lumber Company which was returned here yesterday in the Federal District Court is said to be the result of investigations of Special Agent Goode of the General Land Office into the acquisition of several thousand acres of land in Eastern Oregon. Goode was assigned to the case in February last and late in the month reported to John McCourt, United States District Attorney for Oregon, that he had obtained evidence which in his opinion should be presented before a grand jury.

District Attorney McCourt immediately assembled the grand jury and the indictment yesterday is the fruit of the investigation. In a statement made by Grant Goodes, superintendent of both the Oregon Lumber Company and Sumner Valley Railroad Company, he is alleged to have said that, by arrangement made by their attorney, guarantee has been made for the appearance before the Federal District Court before the grand jury of a man named Mr. Deles, who is said to be president of both the lumber company and the railway.

Portable Structures For Gotham Schools

NEW YORK, March 11.—A large part of \$1,455,000 which New York will spend this year for new school buildings is to go into the construction of portable school houses, a scheme of Mayor Gagner for the immediate relief of the congestion in crowded parts of the city. There are about 50,000 children on part time. It takes from two to three years to build a permanent school house, but the portable buildings can be set up in time for the school openings after next summer's vacation. The mayor plans to provide a seat for every pupil when the autumn term opens.

PLEADS STRONGLY FOR PLAYGROUND

Tompkins' Experiment Proves Need of Recreation for School Children.

In an effort to have the playground which has been in operation for some time in the yard of the Tompkins school made a permanent institution the principal of that school, Miss Adeline E. Walton, has written a letter to the playground commission setting forth the advantages which have resulted from the ground and the necessity for its continuance.

The letter follows:

PLAYGROUND VALUABLE.

Mr. A. S. Macdonald, President Playground Commission.

Dear Sir: The Tompkins school playground has now been established for several months and I think we may now judge fairly of its value to the neighborhood. It has passed the experimental stage and I sincerely hope it "has come to stay." It is certainly very much needed in this locality and is largely patronized by the following statement shows: Of 454 pupils enrolled in this school 285 are in more or less regular attendance at the playground. This does not, of course, include the babies who enjoy sandboxes, swings, rocking horses and hammocks, nor children not enrolled in Tompkins.

The sentiment of the neighborhood is strongly in favor of the playground, which is certainly a boon to mothers. A little girl said to me, very earnestly, "My mother has seven children and she likes to get rid of us all sometimes."

HARMONY EXISTS.

I have been pleased to notice the spirit of harmony which exists under the efficient management of Mr. Vall. The position of director is one requiring tact, patience and firmness, all of which Mr. Vall possesses. The services of his assistants are very valuable, and the daily association of our boys and girls with Mr. Vall and his assistants is not the least of the advantages of the playground.

I see also a new school spirit among the older pupils, both boys and girls, and a growing interest in out-of-door sports.

We need, however, some new apparatus, which I hope will be secured in the near future. All of our present outfit is in constant use during playground hours.

I hope we may sometime have larger playgrounds for the older boys and girls, but trust that the school grounds will never again be shut to the children to whom they belong.

Very sincerely yours,

ADELINE E. WALTON,
Principal Tompkins School.

Wireless Telegraph Car on Glidden Tour

DETROIT, Mich., March 11.—A local motor company has opened negotiations with several of the wireless telegraph companies operating in the United States for the use of a wireless telegraph car for the 1910 Glidden tour. A considerable portion of this year's tour will extend through the territory where telegraph and telephone service is comparatively inefficient.

According to the present plans, the wireless telegraph car will follow in the wake of the tour so that any accidents or mishaps along the road may be reported from it. This wireless service will be placed at the disposal of all of the newspaper reporters accompanying the tour.

Police Seek Beau Brummel Believed to Be Most Daring Crook.

LOS ANGELES, March 11.—Secret service officers and the police of San Francisco, this city and all the larger places along the coast and in the middle west are seeking a finely dressed young man named Dan A. Boyd, alias Sam Myers, who is believed to be one of the most daring crooks in the country.

The specific charges against him are impersonating a Federal officer and passing fictitious checks. Apparently he has served in the army, has traveled extensively in the Orient, is generally accomplished and will be hard to capture.

MEETS WOMAN.

About the middle of last month Boyd was at San Francisco, and at the Palace Hotel he met Mrs. Georgia Turner of Michigan avenue, Chicago, a handsome young woman, reported to be wealthy.

He accompanied her from there to Del Monte, paid exorbitant court, ingratiated himself deeply in her affections and the result was that they traveled together to Santa Barbara and finally came here, registering at the Angelus Hotel as husband and wife.

ROBS HER.

On March 1 Boyd found an opportunity to rob the deceived woman and she awoke to find him gone, together with her valuable diamond ring, negotiable papers, \$50 in cash, a ticket to Chicago and some jewelry.

He left her practically penniless and she had to appeal to her relatives in Chicago for financial assistance.

Before skipping Boyd secured from proprietor Loomis of the Angelus \$50 on two worthless checks, and it appears that he victimized many others in a similar manner.

A search of the man's effects disclosed correspondence showing that he posed all along the coast as the confidential man of Chief Wicks of the United States secret service.

Facts About the Gold Dust Twins

The Gold Dust Twins are cartooned more than any other trademark in the world. Life, Puck and other comic papers have given up their front pages to them. The N. Y. Herald, Chicago Record-Herald, N. Y. World and hundreds of other not-to-be-bought dailies have cartooned the Gold Dust Twins prominently. Why? Simply because the Gold Dust Twins are popular and known everywhere where the English language is spoken and read.

This is significant when you stop to think of it. The Gold Dust Twins are simply the trademarked picture of Gold Dust—the greatest cleansing powder the world has ever known. Everybody knows it—nearly everybody uses it.

If you are not using Gold Dust to wash your clothes, wash your dishes, clean your pots and pans, scrub your floors and doors, you are doing your housework in a needlessly hard way. Try Gold Dust—favored by press and careful home folk.

Passerby Is Crushed When Lumber Topples

SAN FRANCISCO, March 11.—An unidentified man, while passing through the lumber yards of Pope & Hubert, and Henry & Co., yesterday afternoon, was almost instantly killed by the falling of a stack of planks. The lumber became shaky and before the man could get out of the way he was pinned beneath. Workmen were hurried to the scene from various parts of the yard and did their best to extricate him, but when the lumber was removed he was dead.

WHEN STOMACH BLOOD AND NERVES GO ON A STRIKE

Do you know what "atonic dyspepsia" means? It is, perhaps, the commonest form of stomach trouble. Most people have had it, more or less, and will have it some day.

It is caused by a lack of tone of the system, debilitated stomach, blood or nerves, for these three are intimately dependent on each other. Stomach trouble robs the blood of nourishment; then blood means starved nerves, nervousness and neurasthenia.

And it is precisely this interdependence of the stomach, blood and nerves that makes Dr. Williams' Pink Pills such a valuable home remedy. A blood builder and nerve tonic, they keep the stomach in perfect condition, provided it is not abused by improper diets.

Mrs. E. J. Burdick, a farmer's wife, of Campbell, Cal., was cured of stomach trouble by Dr. Williams' Pink Pills and recommends them to other sufferers. She says:

"Three years ago I had stomach trouble and nervousness and think it was due to overwork. My stomach did not seem to digest the food and I got so that I could not eat much of anything. This seemed to take my strength away and, while I was not confined to bed, I had to give up my work. I was very nervous and easily excited. I could not seem to get any strength and was very pale.

"I was treated by two doctors who said that my blood was impoverished. I grew worse, if anything, under their treatment. My daughter read about Dr. Williams' Pink Pills and brought home a box for me to try. Although I had been sick for several weeks, I was soon helped by the pills. My appetite picked up and the food was digested. I began to get stronger and in a short time I was cured. I am glad to tell of my experience which I hope will be of help to other sufferers."

The remedy that cured Mrs. Burdick is guaranteed free from opiates or harmful drugs.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y. A copy of our diet book will be mailed free to anyone who wants to be cured.

SCIONS OF VIKINGS CELEBRATE AT BANQUET

Tenth Anniversary of Founding of Oakland Swedish Society.

TOASTS TO THE OLD LAND OF THEIR BIRTH

Many Guests Attended From the Cities About the Bay.

One hundred and twenty-five members of the Swedish Society of Oakland were present at the St. Mark Hotel Wednesday evening in celebration of the tenth anniversary of the organization of the Oakland branch of the society, which has been in existence in San Francisco for the past thirty-five years.

The order of the evening included a banquet at 8:30 presided over by C. T. Peterson, business manager. Members were present from both sides of the bay and the success of the affair promised that a similar gathering would be an annual event.

The order is a patriotic fraternal organization and has been managed on such successful lines that now its benefits as proportioned to the expense to the individual member are exceeded by no other body, while practically every other similar society falls far behind.

It pays sick and death benefits, and perhaps the only body in the United States that provides sick or disability benefits to members for life, no matter how long the disability lasts before death intervenes.

TOASTS AT BANQUET. Following the serving of the menu, several toasts were responded to, among them being that of A. Lundquist, president of the San Francisco society, on "To California," and his remarks proved of what extent the tie that binds affected new members from the Fatherland.

At the close of his address three cheers were given for the United States and were heartily rendered.

Toasts "To the United States" and "To Greater Oakland" were appropriately responded to and "The Old Fatherland" received a touching tribute from Alexander Olson, editor of the "West Coast," a Swedish newspaper published in San Francisco.

Paul Hoberg, ex-president of the United Singers, told of Swedish music and the efforts to keep it alive in America. He said that Swedish singing societies formed a chain across the American continent, that it was expected several thousand would be in San Francisco during the fair of 1913.

Mr. Tingberg sang humorous songs in his native tongue, winning repeated applause. He recited a poem in Swedish in excellent voice. E. K. Hanson spoke on "The Science of Politics" and Richard Petersen on "The Swedish-American in Fraternal Organization."

BOARD OF OFFICERS. The following are the officers of the Oakland society: C. T. Peterson, president; A. W. Gustafson, vice-president; Charles A. Blom, corresponding secretary; N. G. Lindgren, financial secretary; A. Hoffer, treasurer.

The ladies were in charge of a committee composed of A. Sutherland, Chas. A. Blom and C. T. Peterson. Included among the guests were the following: Mrs. and Mrs. G. Bergstrom, Mr. and Mrs. A. Sutherland, O. E. Sander, A. W. Gustafson, Fred Masterholm, Mr. and Mrs. Anton Hjella, O. Bergstrom and lady, Mr. and Mrs. O. G. Reid, Mr. and Mrs. O. Peterson, A. W. Alm, O. Anderson, Axel Olson, Aug. Jackson, Gus Anderson, Edna Bonning, Mr. and Mrs. Alvin Johnson, E. L. Bergstrom, Mr. and Mrs. Charles Jacobson, Henry Colman, Paul Brusk, Charles Warren, N. G. Lindgren, Mr. and Mrs. Armstrong, Mr. and Mrs. A. Johnson, Mrs. Johnson, Mr. and Mrs. John Jostlund, Mr. and Mrs. Aron Nesson, Mr. and Mrs. Henry Olson, Otto Johnson, Mr. and Mrs. J. Johnson, A. J. Big Opium Seizure On Pacific Liner

SEATTLE, March 11.—Customs officers searching the Great Northern liner Minnesota for smuggled opium yesterday discovered and seized three tons of the narcotic. This is the second seizure made by the government inspectors since the Minnesota arrived from the Orient last week. The total value of the opium being \$500. The customs inspectors believe that there is an organized ring of opium smugglers operating in the Pacific Northwest. The Minnesota was engaged in the opium smuggling business. Within the last few days she has been carrying opium from the coast of China to Seattle. The contraband goods are destroyed by incineration.

Calhoun En Route to His Post at Peking

CHICAGO, March 11.—When W. J. Calhoun, minister to China, left Chicago last night en route to the Orient, he was attended by an escort of four Chinese, escorted by the Imperial government at Peking to look after his safety and comfort until he sets foot on Chinese soil. "I don't know when I am coming back. I am going to stick to the post until I have either been officially recalled or they failed," said Mr. Calhoun. "I shall stay until my work is finished."

Rock Island Seeks Terminal at Denver

DENVER, March 11.—Expansion of the Rock Island Railroad, consisting of an entrance to Denver over its own rails, the purchase, or more probable, the lease of, or a traffic agreement with the Denver Northeastern and Pacific, and an alliance with the Denver and Rio Grande and Western Pacific Railroads, which will provide an outlet to the Pacific Coast, is said to be receiving official consideration. It is said H. V. Madge, president, and A. C. Ridgeway of the operating department of the Rock Island will arrive in Denver today for the purpose of investigating certain features of the proposed expansion projects.

High Prices Noted At Insane Asylums

ALBANY, N. Y., March 11.—The high price of provisions is having its effect on state hospitals for the insane. The state commission in lunacy states that this just opened for purchase of provisions show startling changes. Meats and fish are said to have advanced about 10 per cent.

Mrs. Cudahy Is Not To Go on the Stage

KANSAS CITY, Mo., March 11.—Mrs. Jack Cudahy, whose husband attacked the Barker Karpis Sunday morning, said she had received a score of offers to go on the stage, but had declined them all. "Really, though," she added, "if it were not for my children I would go on the stage. The stage always appealed to me. Not the glamour of the footlights or the plaudits of the people, but the life and the people. It is the good fellowship you find among the members of the profession that appeals to me."

Supply and Demand Handled in Lecture

Dr. Perry Joseph Green of Portland delivered two lectures at the Rest Reading Room, 719 Fourteenth street, Monday and Tuesday evenings. He took for his subject "The Psychology of Success." The lecture dealt with the operation of the law of supply and demand. He proved his ability to solve perplexing financial problems, as well as to correct physical, mental and moral infirmities. Dr. Green will repeat these lectures Wednesday and Friday, March 16 and 18.

Muscovite Feeney Receives Deserts

KHARKOV, Russia, Thursday, February 24.—Inspector Lagovsky, of the Luber police department, was sentenced today to four years in the penitentiary for manufacturing evidence on which three innocent students narrowly escaped court martial and death for terrorist activities. Lagovsky, hoping to secure promotion, concocted the terrorist proclamations and cipher correspondence which he concealed in the houses of the students, showing their connection with the crimes, buried a number of bombs and revolvers in their gardens and, as a climax, shot himself in the arm to simulate an attempt on his life, swearing that he had identified one of the students as a perpetrator.

New York Cars Carry 128,881,000 in Month

NEW YORK, March 11.—The traction lines of New York City are increasing in a report made public today by the Public Service Commission. In the month of December, 1909, a total of 128,881,000 passengers were carried, which was an increase of about ten million passengers over the same month of the previous year. This is an increase of about 340,000 per day, or of more than a hundred million a year.

Stops Runaway Horse But Dies of Fright

BOULDER, Colo., March 11.—After stopping a runaway horse Wednesday night, Mrs. R. T. Marshall of this city entered the home of a neighbor and died within fifteen minutes of fright. The horse Mrs. Marshall was driving, named at a tree stump and held Mrs. Marshall clinging desperately to the reins and after a hard struggle brought the animal under control. Exhausted and nervous she entered a neighbor's house, immediately fainted and was dead before a physician could be summoned.

LUNCHEON AT PALACE

MISS EVELYN JONES, whose engagement to Weare C Little is announced

Acquainting friends and keeping them in the surest way to social success provided each friend is well marked so to speak as being of sterling merit and of the right weight in the social scale. Some people seem born with the knack and insight intuit on about these most necessary points and no matter where they visit will at once slip into the charmed circle from which most newcomers are excluded. When at hotels at home or abroad they always stumble upon the hostesses and even royal travelers inclined to will come their way. On all sides they are met and warmly appreciated. On the other hand there are many who trust purely for the sake of meeting desirable people who put up at hotels where royalty is expected and go to thousands of expense and trouble to dine and wine call new acquaintance and yet are ever apart. It needs a magic touch to open the portals to friendship and a sympathy that but few really possess.

MISS CLAFLIN

Miss Marjorie Gould of New York whose wedding takes place in the near future to Anthony J. Direxel Jr of Philadelphia, has picked for her bridesmaids some of the most beautiful young women in society. Miss Claflin was among the first to be chosen.

I have been keeping tabs on the different kinds of kisses who come in here said Gladys Melrose the reporter at the 135 f t Hamburg American line at the foot of First street Hoboken yesterday and have found that there are six general types and many varieties To begin with there is the whiskey kiss or the Russian kiss which is given by one man to another The kissers enfold each other in a glacial embrace and putting whisks to whiskers kiss each other in the cheeks

The sweetest kiss is distinct from the husband and wife kiss I got to German sweethearts from German visitors as far as I can see or hear their kisses

I can see the energy of the kiss generating in Heinrich's face as he stands on the dock waiting and watching to catch sight of Gretchen on the ship When she comes down the plank and—she throws herself that's what she does—herself into his arms you can hear the smack of that tins head was down the plier a sound to give strength and courage to every male thing that hears it explode

Woman Sees Image of a Man in Mirror and Screams—Police Get Prisoner

NEW YORK—When Mrs. Mary Reckman of No. 35 Lee avenue, Williamsburg, turned home Saturday night she looked through the window of her lavatory dining room and in the mirror over the mantel saw the reflection of a burglar. As a result Otto Preyer, then to one who says he lived in a Bowery lodging house, is held in Brooklyn on a charge of burglary.

Mrs. Reckman went marketing Saturday afternoon after locking the house. It was not yet dark when she returned. As she was about to enter the lavatory dining room she heard somebody moving in the house. Then in the mirror she caught sight of a man ransacking the silver closet. Mrs. Reckman waited in silence

NEW YORK—Miss Annie E. Duane, twenty years old of No. 311 East One Hundred and Twenty third street caught a pocketbook snatcher yesterday afternoon by her wing her umbrella. She held it over her head and caught the thief by his legs as he was running and then called for help.

Miss Duane got on a Westchester car at One Hundred and Twenty ninth street and Third avenue shortly after 2 o'clock. The car was crowded and for a block she had to stand up. Then a man offered her a seat and as she sat down he turned and with one sweep she did not pay any attention to this.

A moment later when Miss Duane put her hand in the pocket of her coat for her purse to pay her fare the purse was gone. She looked up and saw the man who had given her his seat making for the front door of the car.

PETITION OAKLAND TO VOTE BONDS FOR HALL

The Progress and Prosperity Committee Point Out the Benefit of Auditorium.

LEEWAY EXISTS TO USE BONDED INDEBTEDNESS

Valuable Municipal Credit to Be Spent for Building Means Millions in Income.

Claiming that a large auditorium in which lodge conventions and political and church conferences may be held will be of benefit to the city, for the reason that conventions are attended by many visitors, and stating that the recent Elks' convention held last summer in Los Angeles brought thousands of dollars into that city, the Progress and Prosperity Committee of the Chamber of Commerce is busily engaged in circulating petitions for the auditorium it proposes. The committee claims to be able to secure for Oakland a large number of conventions, providing a suitable auditorium to accommodate these meetings can be furnished.

LETTER ISSUED.

The question of the amount needed to pay for this building and the bonded indebtedness it would incur is taken up in a circular letter issued by the committee, which reads in part as follows:

San Francisco, a municipality is considered to be well administered when its bonded indebtedness falls within a limit of fifteen per cent of its assessed valuation. Oakland's last returns show the latter figure to be approximately \$110,000,000, while its outstanding bond issues, including those recently voted upon for waterfront improvements and a new City Hall, aggregate only about \$6,000,000. It will thus be seen that there is leeway to the extent of \$9,500,000, and this is valuable credit that should not be lightly underestimated.

ISSUE A SUCCESS.

For the promotion and proper administration of mercantile industries, a corporation considers its credit at the bank or through the sale of its bonds, a legitimate method of conducting its affairs and a most valuable asset. And if the benefits to be derived from the contemplated bond issue for a convention hall were to be received indirectly only, there would still be good ground for the enterprise being carried to a successful issue.

But this particular investment is more than a mere indirect beneficiary instrument. Actual profits will accrue to the

municipality whereby taxation will be met by the returns from the use of the hall by private interests. Coupled with this certain source of income must be considered the advantage to our business community by the holding of conventions.

REVENUE DIG.

It is estimated that the Elks' convention recently held in Los Angeles brought into that city from newcomers alone \$2,000,000 per day. For the length of the six months of new money was spent in that locality. A fair estimate of profit—ten per cent—would mean that those three days meant to Los Angeles business men a net revenue of \$600,000.

DENVER'S HALL.

Details of the history and construction of the famous Denver auditorium have just been received by the committee.

The Denver convention hall which has made the city in which is located one of the most prominent in the United States, was built in the winter of 1907, especially to take care of the national Democratic convention held July 7, 1908. In order to bring to Denver so important a gathering of the most noted men in the country, the business-

men raised a private fund of \$100,000 for the entertainment of their visitors, while the people voted, almost unanimously to bond the city for \$500,000 which to build a suitable convention hall.

As a result Denver now possesses a magnificent building capable of seating 12,000 persons, situated in the very heart of the business district. Brick, stone, concrete and steel are the materials used in its construction, and its interior fittings represent the very highest type of indoor decoration.

BETTER HALL HERE.

It is felt by local men to whom the pictures and plans of the auditorium have been submitted that a better hall for less money could be erected in Oakland since Alameda county boasts of building supplies indigenous, as it were, to this section of the State that cannot be excelled.

Climatic conditions, too, are more favorable to a cheaper construction cost, and the proposed bond issue of \$500,000 it is known will be ample to take care of this new venture.

Denver's auditorium is so arranged that it may be used by small fraternal bodies without the necessity of opening the large convention hall, and in fact

Brakeman Is Injured In a Train Collision

PORT COSTA, March 11.—Paul Greely, a brakeman, about thirty years old, was severely injured yesterday, when a work train of the Southern Pacific on which he was working, crashed into a caboose. The train was distributed gravel along the track, between Rodeo and Port Costa, when it was found necessary to return to Port Costa for water. The engine was cut off, and on the trip back, came at such a high rate of speed that the engineer could not bring it to a stop until it had crashed into the train.

The caboose was knocked up on the hillside about twenty feet and Greely was caught in the wreckage. He was first brought here for treatment, after which he was removed to the Southern Pacific hospital in Oakland. It is not thought he can recover. Greely was a resident of Altamont, Alameda county, where his parents now live.

Many benevolent orders have their headquarters in the building, from which source the municipality derives a steady income the year round.

INVESTMENT GOOD.

It is conceded also by businessmen that property in the neighborhood of the structure has appreciated noticeably in value, and the investment, which as a matter of fact, takes care of itself, has proven a profitable undertaking, not only for the municipality, but also for the commercial interests of Denver, to which credit is due for the inception of the scheme.

It is argued locally among those interested that if such a building is a good investment for Denver, it can be made so for Oakland.

High-class contractors all give surety bonds when building. See Penfield-Tanpore State Surety Co., 1262 1/2 Broadway, Oakland 412.

Astronomer to Talk About Planet Mars

ALAMEDA, March 11.—Dr. Adams will address the Alameda Improvement Club on the planet Mars at its next regular meeting on March 24. Dr. Adams is a well-known astronomer. His lecture will be illustrated. The evening will be in the form of a ladies' night. Dr. Adams will also speak on Halley's comet and Comet 1910.

Decapitated Chiefs Ask for Injunction

SAN FRANCISCO, March 11.—The eight battalions chiefs of the local department whose heads fell victim to the axe of the board of fire commissioners last night have decided not to submit without a struggle, and today they applied for an injunction against the board and their successors, preventing them from taking office.

Those who protest against their removal and harassment to the rank of captain are: Battalion Chiefs James Loden, M. J. Farley, S. D. Russell, Michael Boden, Thomas March, Henry F. Horn, George Bailey and James Radford, of engine 11.

BLACK-FACE MEN ONCE WERE COOKS

The Company Stranded and McIntyre and Heath Made Pies on Boat.

Without thought for the possible continuance of the contract, McIntyre and Heath began their annual season of fun-making at the Macdonough Theater Monday night "struck hands" in San Antonio, Texas, in 1874, for the purpose of joining a floating minstrel troupe which would not accept them singly. This union which has grown even closer with succeeding years is today the longest-lived association of actors that has been known to the American stage.

COMPANY STRANDED. Their company soon stranded and McIntyre and Heath were left without a penny not many miles from St. Louis on the Illinois side. It is told that they walked to that city and with fervid determination to get enough to eat to make up for the past, accepted work as pastry cooks on the old "City of Alton" running between St. Louis and New Orleans. It was on this trip they made their decision there was a wide field for the close study and actual imitation of the funny negro as he really was rather than in using the ordinary jig-dancing and almanac jokes with burnt cork make-up as every other imitator of the times was doing.

STUDY THE NEGRO. For five years, therefore, they left the variety stage and used traveling circuses which covered the smallest of towns in order to study the negro at close range. It is their claim they have danced and watched the negro dancing along the levees from St. Louis to the Gulf and never allowed the opportunity to pass to learn a new dialect, of which they claim there are twelve distinct kinds in the country.

MINSTRELS AGAIN. They returned again to the McIntyre and Heath minstrel, which at last brought them overflowing results all over America. About 1887 they brought out the personally written sketch, "The Georgia Minstrel," and for fifteen years newly prepared plays were sidetracked by vaudeville managers, who demanded their old act. No other single act of the stage has lived half so long and with such undimmed brightness. Their long-lived contract with Klaw & Erlanger has climaxed since and surrounded by a big company and the accessories of a consuming McIntyre and Heath are said this season to be at the zenith of humorous impersonation of the rollicking negro.

Mrs. Cordes Alleges Spouse Deserted Her

SAN FRANCISCO, March 11.—Following close upon her suit for maintenance, Mrs. Nello L. Cordes, the wife of Frank E. Cordes, an expert accountant, filed an action for divorce against him this morning, alleging desertion. Mrs. Cordes has been married three times, and wedded her present husband June 11, 1909. Recently she was granted \$40 per month maintenance by Judge Graham, and in her suit today asks for suitable alimony, declaring that her spouse is in receipt of \$250 monthly.

ALTON PARK A BIG SUCCESS

Indications Point to a Record-Breaking Sale and Arrangements Being Made to Accommodate Big Crowd Tomorrow.

The Realty Syndicate is planning to accommodate a big crowd at Alton Park tomorrow. The announcement that they propose to sell these lots has created a great deal of interest among realty buyers, as it is a piece of property that for some time has been watched by the investing public who have shown a disposition to take hold of it as soon as the opportunity afforded.

"In connection with this week's sale of 'Alton Park,' at Fortieth and Broadway, we desire to state that building restrictions will be strictly enforced upon all lot buyers and that no houses will be permitted to be erected costing less than \$2000 each," said Nat. M. Crossley of the Syndicate.

"In taking this stand we are insuring the public that Alton Park will be built up by desirable people and that each street will be beautified by attractive cottages and bungalows."

"We have seen so many tracts ruined by undesirable shacks and there seems to be such a general demand for medium-priced lots in good neighborhoods that we have concluded to keep out of Alton Park the objectionable features so often prevalent elsewhere."

Mr. Crossley states that the Syndicate expects to sell at least \$60,000 worth of these lots tomorrow, and that at least \$30,000 worth have been sold since Monday last. Judging by the overwhelming amount of inquiries that are coming in from headquarters, there will be hundreds of buyers upon the property, and in all probability every lot in the tract will be sold within the next 48 hours.

"The fact that the Realty Syndicate will enforce building restrictions at Alton Park is worth \$50,000 to the prospective purchasers of these lots," said a purchaser at the tract yesterday. "This protection against objectionable structures is the greatest feature of the sale. It cannot be too emphatically impressed upon the people, for it is the vital spark of the whole proposition."

MAY CALL STRIKE OF SHOE MAKERS

The Low Wages Bring Protest
From Shoe Factory
Workmen.

Trouble which may develop into a serious strike unless conditions are changed was started last night at a stormy meeting of the shoe factory workers of Oakland, who last night discovered that, although they are an offshoot of the San Francisco union, they are receiving a wage of from 25 to 100 per cent less than the shoemakers of San Francisco. The union on this side of the bay is a small one, there being only two shoe factories on this side of the bay, and the whole union numbers about 100 members. They met last night at the Central Council hall with the executive committee of the San Francisco union to consider their grievances, and the matter will be brought to the attention of their employers next week.

HIRE BOYS.
Another grievance which the Oakland shoemakers have is that employers are beginning to hire boys instead of a man, putting them on piece work, and thus effecting a considerable saving. The matter will probably be brought to a head by the next meeting of the union, which will be held in two weeks.

BARBERS TO CLOSE.
Cards announcing the Sunday closing rule of the barbers' union, which goes into effect on April 3, have been posted by the union in all the shops of Berkeley, Oakland and Alameda, and are now being posted in Fruitvale and the annexed district. After a considerable effort F. B. Perry, business agent of the union, has prevailed on the ten-cent shops, the Japanese barbers, and other non-union establishments, to follow the lead of the union men, and as a consequence, not even a Japanese shop will be opened on Sunday after April. This, according to Perry, is the first step toward bringing a number of the "open shops" into the union, and an effort to organize the non-union men will be made next month.

APPRENTICES MEET.
Ten new members were initiated last night by the Machinists' Apprentice Union, which although composed of boys, is becoming one of the most active unions affiliated with the Central Council, and has in the past year gained an enormous membership roll. The boys last night decided to hold a ball, for the benefit of their union, in the near future, and arrangements for this will be taken up at the union's next meeting. A committee of six will be appointed to decide on a date for the affair and to arrange for a hall and music.

"Watch Me," He Says Then Drinks Acid

SAN FRANCISCO, March 11.—An unidentified man, apparently from Astoria, Oregon, astonished William Smith, the bartender, in the saloon at 10 Stewart street, at midnight, by calmly committing suicide before him.

The stranger, who was six feet tall,

weighed 225 pounds, light complexioned and who looked like a miner, entered the place and asked for a drink. His request was complied with, and calmly saying to the saloon man, "Now you watch me," he hastily drew a vial from his pocket, poured in a few drops of prussic acid, drank the mixture, and fell to the floor. An ambulance was summoned but by the time he reached the harbor hospital the man was dead.

ALTON PARK

AT 40th AND BROADWAY, OAKLAND

Opens Tomorrow

OUR OFFICE AT 1218 BROADWAY WILL BE OPEN TONIGHT.

Inquiries regarding the opening of Alton Park tomorrow are coming in so rapidly that it will be utterly impossible for us to answer them individually before the hour of the opening.

Consequently we herewith publish a list of the questions most frequently asked.

We suggest that you look them over, as you will find your inquiry answered somewhere.

In publishing these questions we sometimes combine several in order to save space and give clearer meaning.

Q. What is the size of the lots, the terms and prices?

A. No lots in the residence section smaller than 35 feet of frontage will be sold. Our prices on inside lots are \$1225 and the corners are \$1487.50. On 40th street and on Broadway we will allow sales of 25-foot frontages, as this is business property. On these streets prices are \$60 per front foot for inside lots and \$75 per front foot for corners. Terms about 20% down and balance monthly as convenient—6% on deferred payments. \$20 paid as a deposit tomorrow will hold any lot for a few days.

Q. What is the Key Route monthly commutation rate to S. F.?

A.—Three dollars, allowing a round trip every day, including Sunday. Trains running every 20 minutes during day and night. Every 15 minutes during evening rush hours. Depot on tract; 35 minutes to S. F.

Q. What are your building restrictions?

A.—Two thousand dollars; no stores or business structures allowed in residential section.

Q. Is the street work all completed?

A. Yes, and the sidewalks are laid. The price includes street work, sidewalks, sewers, mains for water and gas and electricity. The tract is all ready for the buildings.

Q. How long does it take to get from the tract to Oakland?

A. Ten minutes. The Greek Theater can be reached in 17 minutes. The business section of Berkeley in 20 minutes. It is the most centrally located property in the county.

Q. If I buy a lot on terms will you also erect me a house on terms?

A. Yes. If you can pay us \$750 down we will finance the whole proposition, allowing you to pay the balance like rent. We will have more to say about this proposition later on.

Q. How rapidly do you expect this property to advance in value?

A. At the rate of about 20% for the first year. The tract is to be sold 10% below the market and the erection of houses and the natural development of the district will increase its value with great rapidity. The \$1225 lots ought to be worth \$2500 by 1915. This, we consider, is a fairly conservative figure.

Q. Will you continue the sale so that the property may be seen on Sunday?

A. Yes, altho our down-town office will be closed. As a general thing we do not approve of devoting Sunday to business, but realize that most business men cannot get away during the working hours and for their sake have concluded to make an exception and have the tract office open next Sunday.

Q. Do the College avenue and Broadway cars, which pass the property, transfer to Hayward and East 14th street?

A. Yes. Also to Alameda and all parts of Berkeley; in fact, to every line in Oakland. You can go from Alton Park to Melrose for a nickel or to Alameda or any section of Oakland.

Q. What about the soil? Can a man make a garden and lawn grow without going to the expense of hauling in a lot of dirt?

A. The soil is unusually fine. We know of no other piece of property possessed by the Syndicate that has finer, richer, more productive soil. Anything will grow luxuriously with the least care.

Q. How wide are the streets?

A.—Broadway and 40th are 100-foot streets. The other streets are 80 and 70 and 60 feet. All houses must be set back 15 feet, which will give a clearing space of from 90 to 110 feet, affording a fine open appearance so characteristic of the best properties in Southern California.

Q. What is your scheme relative to insuring lot buyers of pretty neighboring homes?

A. We are going to endeavor to scatter the lots selected tomorrow so that we can retain for ourselves a number of lots in each block. Then we are going to commence immediately the erection of artistic cottages and bungalows upon these lots. All these houses will be different and all will cost from \$2000 to \$3000 each. The object of the little homes that we erect will be to give character and architectural beauty to the tract. With a pretty bungalow for a neighbor upon each side a lot purchaser cannot help but feel encouraged to build something particularly fine for himself.

As fast as our bungalows are completed we will sell them on terms so that they'll all be occupied. This is something no other real estate concern ever attempted upon any important scale. Sometimes private contractors have been interested in such work, but having no great financial interest in the tract, have not gone to the extent we propose to go to in actually beautifying the property.

Of course we cannot refuse to sell any lot any man wants, but we very much desire to retain as many lots as possible for purposes specified above. There is nothing that makes property as valuable or a subdivision as successful as building improvements of a desirable nature. We have the capital to accomplish our plans and as Alton Park is our first attempt we are naturally very anxious to try out the idea. We have the plans of some of these houses in our office now. You are welcome to look them over.

MAYBRAY GANG FACES 127 WITNESSES AT TRIAL

Government Produces Small Army to Testify Against Alleged Swindlers.

MILLIONAIRE'S CLUB GARNERED A MILLION

Efforts Being Made to Enforce Presence of Trio Released in Los Angeles.

COUNCIL BLUFFS, Iowa, March 11.—Colonel Temple Lindley Stables, district attorney, promised to have plenty of strong witnesses on hand when the case of John C. Maybray and 18 of his alleged associates was resumed this morning. He said that 17 government witnesses were now and that most of them would be called. Judge Sinton, who presiding over the case, said that he would give notice that sessions would last until 6 p. m. with night sessions if it were found necessary.

COLLECTED MILLION
Postoffice Inspectors, who have obtained a list of the evidence in the Maybray case, stated today that the known evidence in the Maybray case would amount to a million dollars. The Little Rock, Denver, Council Bluffs, Denver and South Platte all had a thriving business while at Seattle and other northwest points less active. The stores were made part of the string of stores operated in the club.

SEEK RELEASED TRIO
Extraordinary efforts are now being made to enforce the presence of H. H. Harriman, Frank W. Brown and J. D. Moore, arrested at one time ago in Los Angeles, but later allowed to leave the city. They are included in the blanket indictment against Maybray and six others. Harriman is alleged to have been "secretary" of the Millionaire's Club and to have handled all the money of the organization.

FLEECING A SURPRISE
He had some part in the negotiations but declared he did not expect Nelson to be freed. He admitted he saw nothing morally wrong in taking money from members of the Millionaire's Club, but regarded the Nelson case as a little different thing.

SPRING VALLEY IN FIELD WITH NEW BRANCH

Company Incorporates Supply Concern to Operate in San Francisco.

BROWN MAY HAVE NEW PROPOSITION TO MAKE

Mayor McCarthy and Supervisors to Inspect Holdings in Two Counties.

SAN FRANCISCO, March 11.—A third mysterious corporation has entered the field under the auspices of the Spring Valley Water Company, through the filing with the County Clerk yesterday of the articles of incorporation of the Water Supply Company of San Francisco. The incorporators are F. D. Boland, R. H. Kimball, J. A. Allen, J. F. Russell, H. L. Anderson, R. A. Wascener, all of this city, and F. H. Markey of Alameda, most of whom are clerks, bookkeepers and young lawyers employed in the office of Page, McArthur & Knight, attorneys for the Spring Valley Water Company. Each of the foregoing directors have subscribed for one share of stock.

According to the articles of incorporation, the new company has a capital stock of \$200,000 and it has been organized for the purpose of furnishing water for the city and county of San Francisco.

GUESSING BROWN'S PLANS
The appearance of the new corporation so soon after the incorporation of the City and Suburban Water Company and the City and Suburban Water Company, has suggested the idea in banking and business circles that William B. Brown, president of the Spring Valley Water Company, has three strings to his bow in the plans he has formed for the disposition of Spring Valley's properties, and plan it is assumed that the City and Suburban Water Company will take over all the lands of Spring Valley segregated for settlement and disposal of such properties to settlers for the benefit of Boun and his associates.

WATER PROPERTIES
The other two corporations deal exclusively with the water producing properties and storage and distributing plant of the parent corporation and are so organized that they can be utilized as the basis of two separate propositions in a new offer which it is assumed Boun will make to the city in order to meet the objections raised by Mayor McCarthy against the proposition submitted at the recent election, and secure a re-submission of a choice of two new propositions to the people.

The City and Suburban Water Company, with its capitalization of \$25,000,000, and the City and Suburban Water Company, with its capitalization of \$25,000,000, are also engaged in the water producing lands, storage reservoirs, pipe lines and distributing plant in San Francisco, San Mateo, Santa Clara and Alameda counties.

The properties represented in the Water Supply Company of San Francisco cover only such water producing lands, storage reservoirs, pipe-lines and distributing plant as are located on the peninsula.

BOURN'S PROBABLE OFFER
Apparently Bourn's plan is to make two new propositions to the city, as follows:

First, the sale of the whole of the properties of Spring Valley represented in the City and Suburban Water Company for \$28,000,000.

Second, all the properties of Spring Valley represented by the new water supply company, for \$20,000,000.

Should the first proposition be rejected and the second adopted it would leave the water producing lands reservoir sites and the big pipe-line in Alameda county in Bourn's possession to dispose of as he saw fit.

TOUR OF INSPECTION
Tomorrow, Mayor McCarthy, accompanied by Clevie Dam, his legal adviser, and Supervisors Kelly and Nelson, Commissioners Cases and Newson of the Board of Public Works and City Engineer Maxson, will inspect the Spring Valley proposition on the peninsula and will devote Sunday to a study of the Alameda county division of the system.

BOURN'S VALUATIONS
In the capitalization of the three new corporations Boun, evidently, puts the following valuations on Spring Valley's properties:
For non water producing lands \$14,000,000
For water producing lands 20,000,000
Alameda County water-producing lands and plant 8,000,000
Total \$42,000,000

Three New Vice-Presidents Named By Southern Pacific Company Head To Facilitate Handling of Business

RAILROAD MEN IN CHARGE ON PACIFIC COAST

General Order Issued by Judge Lovett Making the Big Change.

HERRIN, CALVIN AND McCORMICK ARE TRIO

Each Will Have a Special Department Under His Personal Supervision.

SAN FRANCISCO, March 11.—Under the plans of the new president of the Southern Pacific Company, Judge Robert S. Lovett of New York, three resident vice-presidents have been announced and the general order issued yesterday defines their respective duties. The three vice-presidents are J. T. Calvin, who was first chosen as a vice-president and general manager of the Pacific coast division of the Harriman system from El Paso, Tex., to Portland, Ore., and from Ogden to San Francisco, a long time before the death of F. H. Harriman, W. F. Herrin, who has for years been head of the corporation's legal department on the Pacific coast, and E. O. McCormick, formerly passenger traffic manager on the Pacific coast and later assistant to J. C. Stubbs, traffic director of the entire Harriman system at Chicago.

CALVIN'S DUTIES.
Under the new order the duties of Vice President E. E. Calvin remain practically unchanged. He will continue to have supervision of the transportation construction, purchasing, pension and hospital departments, the field of his jurisdiction covering the Southern Pacific's lines south of Ashland, Ore. west of Sparks, Nev., and north of the Rio Grande, El Paso, Tex. He will report to the director of maintenance and operation, Julius Kruttschnitt.

HERRIN'S JURISDICTION.
As a new vice president Mr. Herrin is to have charge of all law and land matters in the sweep of country north from here to Portland, east to Ogden and southeast to El Paso. In this same country he will have charge of the various corporate organizations of the Southern Pacific. The financial business of the company in California will also be in his care. All the government land grants to the Central Pacific, Southern Pacific, California and Oregon railroad and Oregon and California railroad will come under

his direct charge. In Oregon alone there are 3,000,000 acres of valuable timber lands over which he will have supervision. Much of it is now in litigation in the federal courts. Financial matters of the Southern Pacific in California will add greatly to the scope of his duties.

MCCORMICK'S NEW POSITION.
E. O. McCormick is to have supervision of all traffic of the Southern Pacific Company in California, Arizona, New Mexico, Nevada, Utah and Oregon. This means that Passenger Traffic Manager Charles S. Fee and Freight Traffic Manager H. A. Jones in this city are to report to him, also the head freight and passenger officials resident at Portland and at Salt Lake in so far as their work pertains to the Pacific system of the Southern Pacific Company.

McCormick came to San Francisco in 1894 from Cincinnati, where he was

WILLIAM F. HERRIN.

William F. Herrin, vice-president and chief counsel of the Southern Pacific, was born near Jacksonville, Oregon, August, 1854. He attended the Oregon State Agricultural College and graduated as a bachelor of science. He was graduated from Cumberland University, Lebanon, Tennessee, in 1875 with the degree of bachelor of laws. He practiced in San Francisco until 1893, when he became chief counsel of the Southern Pacific Company. He has been one of the leading attorneys of the California bar. His appointment as vice-president makes him one of the most important officers of the Southern Pacific Company.

E. O. McCORMICK.

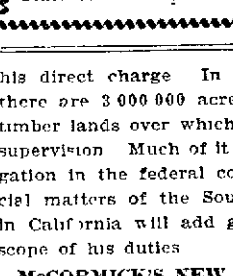

E. O. McCormick entered the Southern Pacific service during the presidency of Collis P. Huntington. He came from an eastern railroad to San Francisco and for several years was in charge of the passenger traffic of the Southern Pacific. He had the reputation of being one of the cleverest passenger men in the business. When J. C. Stubbs went to Chicago as traffic director of the Harriman lines he took McCormick with him and McCormick has held the position of assistant traffic director of the Oregon Railroad and Navigation, Oregon Short Line, Southern Pacific and Union Pacific companies ever since those lines became known as the Harriman lines.

E. O. McCORMICK.

E. E. CALVIN.

E. E. Calvin, vice-president and general manager, is one of the youngest and most capable men holding such an important position. A few years ago he was seldom heard of in railroad circles, but since he came to San Francisco from Portland he proved himself to be one of the most efficient railroad officials ever known on the Pacific Coast. He has risen gradually to the office of vice-president and general manager, and at one time was prominently mentioned as president of the Illinois Central. The late E. H. Harriman reared to a large extent upon Calvin and made him his representative as vice-president of the Northwestern Pacific Railroad and president of the California Northwestern.

When Harriman bought the Southern Pacific and joined it with the Union Pacific road he gave Stubbs his present position in Chicago. Not long afterward, Stubbs called McCormick east as one of his assistants.

"The only change that will result from the order is that Mr. McCormick will be brought to San Francisco," said E. E. Calvin, vice president and general manager of the Southern Pacific yesterday. "He will be vice president in charge of traffic and will have headquarters here. The order became effective today, but I cannot say when Mr. McCormick will arrive. I do not know who will be made his successor as assistant for Mr. Stubbs at Chicago."

SUES FOR DIVORCE BECAUSE WIFE IS SUPERSTITIOUS

Attorney's Spouse Continually Seeking Clairvoyants, He Tells Court.

FLORENCE ROBERTS STOPS A THREATENED PANIC

Commands the Audience to Remain Seated While Quake Shakes Theater.

PORTLAND, Ore., March 11.—Forced repeatedly to move from one "haunted" house to another and finally compelled to live in a hotel on account of his wife's superstitious fears, Attorney W. Leet, prominent professionally and socially, was found after nearly thirty years' trial that married life is unbearable and is suing for divorce.

"My wife has developed an absolute mania for consulting clairvoyants," Leet told the court, "and so orders her life by the dictates proceeding from the spirit world that life with her is no longer tolerable."

Mr. and Mrs. Leet were married twenty-eight years ago and are grandfathers. Both studied law together after their marriage and were admitted to the bar.

Hands Over Girl
PORTLAND, Ore., March 11.—Rather than face his wife's charges regarding alleged unfaithfulness, Frank M. Crawford today abandoned his contest to retain custody of his thirteen-year-old daughter Mildred, who was turned over by Judge Bronough of the juvenile court to her mother. Already the child has resumed her lead role of the "Tongues of Fire" or Holy Roller sect and let in their frenzied devotion tonight.

Mildred had become one of the "inspired" at the time her father secured possession of her a year ago through an order of the court. She was leading the devotions of the Holy Rollers. Her mother had departed on a missionary trip to California. On her return recently Mrs. Crawford filed a petition in the juvenile court charging her husband with improper conduct toward a number of young women and asking for the custody of her daughter.

Actress Averts Panic
SAN JOSE, March 11.—But for the presence of mind of Florence Roberts the earthquake would have caused a panic at the Garden Theater last night. The people in the building jumped up and started to jam the entrance, but were quieted when she commanded them to sit down and continued with the performance. About half of the audience remained throughout the play and the other half left the theater in an orderly manner.

MEET ALL COMERS.
Chiesa announced his willingness to meet all comers and on Wednesday expected a prize on the chin from the sword of General Prudente. Yesterday, the chief of General Fecia di Cossato and today it was decided that everyone was satisfied.

Baroness Siemens arrived from Berlin today and will nurse the General back to his normal health. It is reported that the two will be married soon. The General is 64 years of age and the Baroness 42.

General Prudente under secretary of war refused to reply whereupon he was roundly abused by Chiesa, who took occasion to remark that Duchessa Di Litta had been a great favorite with the King Humbert. Count Giacomino Novardo, a nephew of the Duchessa, hated Chiesa's ears and then challenged the latter to combat.

General Prudente also sent his regards to Chiesa as did General Fecia di Cossato. A fourth challenge was received from a son of the Duchessa, Di Litta at Milan and a fifth from a nephew of the Duchessa in Berlin.

HONOR OF ALL SATISFIED; DUELS END

Sword Vindicates Attack of Deputy on the Reputation of a Baroness.

CHIESA READY TO MEET ALL COMERS ON FIELD

Marks Cheeks of General Fecia di Cossato and Receives a Single Scratch.

ROME, March 11.—The honor of everyone concerned has been vindicated in the two duels fought by Francesco Chiesa, the Republican Populist of Milan and the other three engagements with the offending party were called off today.

In the hammer of duels last Friday, Chiesa, who has a reputation as a duelist, addressed an interrogation to government concerning what he described as the influence of the Austrian Baroness Siemens in the Italian army by reason of her acquaintance with the late Lieutenant General Tancredi Sallustiana and subsequently with General Fecia di Cossato, commander of the grand maneuvers who is said to be engaged to marry the baroness.

FINISH WALLS OF THE COUNTY JAIL

Work on the Interior Will Be Undertaken By Contractors.

The stone work on the new county jail was completed yesterday and the contractors will enter upon the finishing of the interior today. The outer walls and masonry of the new prison structures involves an expenditure of \$220,000, and is considered to be one of the most substantial buildings devoted to penal purposes in the West.

The southern section of the structure is known as the cell house and was completed some months ago. The northern half, the administration building has been under construction for many months and will not be ready for occupancy until the latter part of April.

Both sections are three stories high and present a handsome exterior of pressed brick and rough stone blocks.

SHERIFFS OFFICES
The first floor of the administration section on the north will be devoted to the offices of Sheriff Frank Barnett and his force of detectives and jailers. Sheriff Barnett and wife will reside on the second floor and the top floor will be used for cells for women and juvenile offenders.

Following the removal of Sheriff Barnett and his deputies from their present quarters in the county court house, Superintendent of Schools Frick will occupy the rooms vacated. Frick's quarters are now located in the rooms of Recorder Mott in the Hall of Records and, as the latter is crowded for room, Frick will move to the county court house to allow for expansion in Mott's offices.

PATRICK CALHOUN REACHES NEW YORK

Leaves Today to Attend the Monument Unveiling in Washington, D. C.

NEW YORK, March 11.—Patrick Calhoun, president of the United Railroads, arrived in New York yesterday after a troublesome journey from San Francisco. He left there early last week, but got caught in the tie-up at Ogden and had to make his way back again to the coast and come around by the southern route.

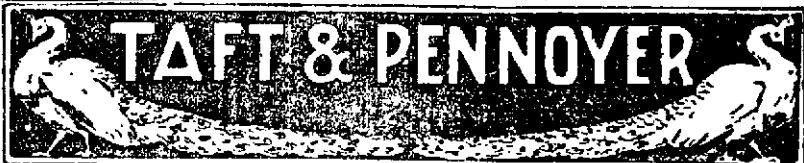

Calhoun is here presumably to confer with the directors of the United Railways Investment Company of New Jersey on matters connected with the San Francisco system. He had no sooner arrived than he visited the offices of Ludden, Thalmann & Co. in the Broad Exchange building and remained in conference there until 6 o'clock in the evening.

This afternoon Calhoun, accompanied by six of his children, will leave for Washington to be present at the unveiling of the statue of John C. Calhoun in the rotunda of the Capitol the next day. While in Washington the Calhouns will be the guests of Governor Asael of South Carolina.

SHOP IN OAKLAND NOW IF EVER

We do not have to refer to Civic Pride, to Convenience in Shopping or to Oakland for Oaklanders, though they mean a vast deal; we simply place our stocks against any in San Francisco, quality for quality, style for style and price for price, and leave it to any reasonable buyer as to which is the best in every instance. We do not offer you Free Commutation Tickets, Free Car or Auto Service; you do not need them and we prefer not to overwork our office force in adding them to your bills. We do not advertise staple merchandise at a price less than manufacturers' cost, as we credit our customers with brilliancy of mind sufficient to discount the assertion. All we ask is a comparison with other stocks. We are willing to let your patronage rest on the outcome of the comparison.

Solves Sub-Treasury Mystery After Years

CHICAGO, March 11. — The mystery surrounding the disappearance of \$173,000 from the United States sub-treasury three years ago is solved, according to a declaration made in Judge Reitano's court yesterday by Attorney James J. Barbour. He is representing one of the defendants in the suit for \$50,000 for malicious prosecution brought by George W. Fitzgerald, former teller in the United States sub-treasury.

"Your honor, we have the evidence as to how the \$173,000 was stolen and we wish to make sure of this information, even if we have to proclaim it at a town meeting," said Attorney Barbour.

Will Appoint Negro Secretary to Post

WASHINGTON, March 11.—Benjamin Bondy, a negro of Cincinnati, who passed the state department's examination for consular service, has signified his willingness to accept the secretaryship of a diplomatic post and no doubt will receive an appointment in case he passes an examination for that service. The fact that Bondy is willing to accept an appointment as secretary of legation, solves a problem which would have caused the state department some embarrassment, as there are very few places in the consular service to which a man of his race could properly be appointed.

DIRIGOS CAPTURE PASSING HONORS

Large Gathering Witnesses Final Games in the Pythian Tournament.

The final game of the Knights of Pythias Club Pythian tournament was played last Monday evening at Athens-Piedmont lodges in Pythian Castle, Oakland, which marked the closing chapter of one of the most successful seasons experienced by the Pythians.

The largest crowd of the season was on hand in anticipation of the very interesting games which were scheduled to be played, and all present were highly elated over the evening's entertainment, which was brought to a close with a banquet and the presentation of trophies to the winning teams.

The opening contest of the evening between Alameda and Oakland proved very exciting, the Spiders however, proving the victors over the Oakland whirlwinds. These two teams have showed wonderful improvement during the last half of the season, and had they started in the form which they have shown during the last two months would have made things very interesting for the winners.

Alameda, however, struck her stride earlier in the game than did Oakland and have been taking everything before them.

The surprise of the evening was the game between Liberty and Live Oak teams, the latter capturing three games from Liberty and finishing in fourth position in the evening's column. Liberty encountered no difficulty in taking three games from the cellar champions from Berkeley.

The results of the evening's games effected the final standing of three teams, Live Oak by winning three, outdistanced places with University who were forced to sixth position, while Oakland also slipped down one notch and landed in fifth place, the remaining teams not being affected.

The Dirigo Demons, winners of the tournament, were the recipients of two trophies, the regular tournament cup and the Lewis perpetual cup, the latter which must be won twice by any one team before it becomes their permanent property.

Mexican War Veteran Dies at the Age of 92

SANTA ROSA, March 11. — James H. Neyce, who was appointed an assistant quartermaster in the United States army, President John Tyler in 1841 and served his country until 1866, when he resigned to enter civil life with the brevet rank of colonel, died at the county hospital here yesterday, aged ninety-two years.

He was a native of Virginia and was an intimate friend of Generals Grant, Sherman, Longstreet, Ingalls and Sheridan. He was secretary of the American legation in Brazil under Henry A. Wise.

His wife, who was the daughter of a United States circuit judge in Virginia, died two years ago.

A daughter, whose whereabouts is unknown, survives him, and unless she or others provide the funds for his burial he will be buried in potter's field.

Lead Pencil Makers Exhaust Cedar Trees

WASHINGTON, March 11. — With a view to replenishing the supply of woods adapted to the manufacture of lead pencils, the forest service has perfected plans for testing a number of the national forest woods in co-operation with several leading representatives of the pencil industry.

The Department of Agriculture recently held conferences with lead pencil manufacturers and it was brought out as stated at the forest bureau yesterday, that the supply of red cedar, which furnishes practically all the wood for the annual output of \$25,000,000 pencils, will be exhausted within five years. In view of this situation, a substitute must be found.

Pittsburg to Greet Roosevelt on Ocean

PITTSBURG, March 11.—Pittsburgers are planning to welcome Theodore Roosevelt on the high seas as he approaches his home shores. The American Club and the Young Men's Republican Club have arranged the trip. A joint meeting

of the clubs on Saturday night will complete plans for special trains to New York and the chartering of a steamer to carry at least 1000 persons. It is planned to sail out about twenty-four hours and meet the Roosevelt ship and escort it to port.

BURNS AND BARRY TO FIGHT BEFORE BLOT'S CLUB

CHICAGO BALL PLAYERS TURN TABLES ON OAKLAND NINE

HEAVYWEIGHTS TO SETTLE RIVALRY

Coffey Prepares to Build a Magnificent Auditorium

By EDDIE SMITH.

It has finally decided to stage Jim Barry and Jack Burns as his card for the month of March. When the ambitious Mr. Plot first received the sanction of the San Francisco supervisors to hold boxing contests he had every intention of staging a battle for his first attraction that would make the fans sit up and take notice. He tried to get Billy Papke and Stanley Ketchel and was robbed of this attraction by Papke going to Europe, and then he settled on Jim Barry and Sam Langford. The latter match would not have caused any great amount of interest, for it would be considered a cinch for the negro.

When the Langford-Ketchel contest at Los Angeles was mixed up by Promoter McCarty declaring that he might change the date from the 17th to the 25th of the month, Plot had to get busy with local talent. If Jim Barry can get into the proper condition he should be able to give the fans a nice exhibition with Burns, but unless he gets himself to the task of preparing properly the contest will be in which a pastmaster at the art of stalling will allow the other man to exhaust himself. Little Johnnie is fighting for a grand mother's ring. This old tale is sprung, year after year.

Soon again the fans will gather. We will glad to see the baseball players turn the tables on the Chicago ball players. Can You Afford To Use Hog Lard?

Lard is the fore-runner of indigestion. The hog fat soaks the pastry through and through, fills meats inside and out with a thick, unhealthy grease that the digestive juices cannot penetrate. The result is a call on the doctor whose advice is to go on a diet and avoid all rich food.

You can eat your fill of pies, cakes and all kinds of pastry if they are cooked with **Cottole**—the perfect shortening—for it is a pure, healthful, vegetable-oil product that contains no trace of hog fat, and does not make food the least bit greasy.

From **Cottonfield to Kitchen**—human hands never touch the oil from which **Cottole** is made. The result is that when you buy **Cottole** you get a cooking fat upon whose purity and cleanliness you can absolutely rely.

For all frying and shortening purposes, use **Cottole**, and give your poor stomach a chance.

COTTOLENE is Guaranteed

Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottole a fair test.

Never Sold in Bulk Cottole is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

PREFERS HANGING TO PRISON TERM

Old Joseph Smith Cries Out in Court When Sentenced to Six Years.

SAN FRANCISCO, March 11.—His frame shrouded with emotion, tottering with age, and with his hands resting upon the attorney's table as he stood facing the bar of justice, Joseph Smith this morning cried out to Judge Cabanis against the penitentiary sentence which was about to be given him by the jurist, confining him to six years' manual servitude at San Quentin.

Smith, who in 1904 murdered Joseph McGowan by shooting his head off with a shotgun, is 77 years old and was convicted of murder in the second degree before the fire. The doctors were despondent, but have now been restored, and on the advice of his counsel he pleaded guilty early this week to manslaughter. Today was the time for fixing sentence, and after some "parley" the court had reached the point when judgment should be pronounced.

"Don't send me to prison," cried the old man. "I'd rather stand my trial. I'd rather stand my trial than hanging from the gallows."

The court was shocked by the interruption, but Judge Cabanis pointed out that he had expected some such occurrence, and asked counsel to counsel Smith's attorneys, who after announcing that he was ready once more to face his doom on the gallows, said the words which sent him to the prison from which he will probably emerge alive.

STOCKTON ASKS AID. A letter has been received from the Stockton police by the department of this city that two men are wanted in that city for the burglary of the jewelry store of J. B. DeBorsh last night.

S.S.S. PURELY VEGETABLE

The safest medicines are those which leave the system in the best condition after their use. This is one of the principal virtues we claim for S.S.S. Being made entirely of roots, herbs and barks, it is not in even the smallest degree harmful to any system, but on the other hand its vegetable ingredients make it one of the finest of tonics to build up the health in every way. A great many blood medicines contain strong mineral ingredients which unfavorably affect the bowels, stomach or digestive system, and any blood-purifying effect they might have is therefore offset by their injurious action on the general health. S.S.S. is the one safe and sure blood purifier. It goes into the circulation and rids the blood of every impurity or pollution. It strengthens the circulation and adds nourishment to the blood and greatly assists in the cure of any blood disease. S.S.S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Contagious Blood Poison and all like diseases, because it purifies the circulation. S.S.S. may be taken by young or old with absolute safety, and with the assurance that it will cure all diseases and disorders due to an impure or poisoned blood supply, even reaching down and removing hereditary taints. Book on the blood and any medical advice free to all who write.

REPORT FAVORABLY ON STATEHOOD MEASURE

Committee Adopts Amendment Permitting Year's Residents to Vote.

WASHINGTON, March 11.—The Arizona and New Mexico Statehood bill was ordered favorably reported by the Senate committee on territory today.

Amendments were adopted which will permit all citizens who have resided in the territories for one year or more to vote for the ratification of the constitutions of the proposed States.

The effect of this will be to enact election qualifications in the form they existed prior to the recent acts of the territorial legislatures, which had the effect of disfranchising certain classes of citizens, not by Mexicans, and which was designed, according to charges made by the Republicans, to make the States Democratic beyond any question for many years.

YEAR'S RESIDENCE.

In the form the Beveridge bill was drafted, residents of the territories would have been permitted to vote after a residence of six months, but Senator Dick moved to substitute a requirement of one year's residence. All members of the committee voted for the Dick amendment, except William Beveridge, who was absent.

Dr. W. H. C. Brown, of the committee, thought to incorporate in the bill the requirement adopted by the Arizona legislature and apply it to both territories. This proposition was defeated by the vote of Senator Beveridge, 10 yeas and 10 nays.

Another important amendment sets aside 1,600,000 acres of public land in each territory for the payment of county bonds which have been officially validated by acts of Congress.

CONSTIPATION MURKON'S PAW-PAW PILLS

Murkon's Paw-Paw Pills are unlike all other cathartics or cathartics. They coax the liver into activity by gentle methods. They do not irritate the bowels; they do not grip; they do not weaken; but they do cleanse the system, and they do not injure the stomach in a way that soon puts these organs in a hostile condition. They do not cause constipation, and they do not weaken the system. They are a safe and reliable remedy for constipation, and they are a safe and reliable remedy for constipation.

In my opinion constipation is responsible for most ailments. There are thirty-two feet of human intestines, and they are crowded with food. When this food becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism, skin diseases, and other ailments. A woman who suffers with constipation or any liver complaint can expect to have a complete, or enjoy good health.

Murkon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate the system of weakness; they enrich the blood instead of impoverishing it; they cleanse the system of food that is put into it. These pills contain no calomel, no dope, they are soothing, healing, and they are a safe and reliable remedy for constipation. Price 25 cents.

COULDN'T STAND MOTHER-IN-LAW

George Eric Thornton Declares She Was Too Much For Him.

It was "mother-in-law" who put the "jinks" on the matrimonial happiness of Mr. and Mrs. George Eric Thornton, according to the testimony of the husband, who was granted a decree of divorce by Judge Wingo this morning from Ida E. Thornton, his wife. The husband testified that he was a victim of his wife's "mother-in-law" who was too much for him. He testified that he was a victim of his wife's "mother-in-law" who was too much for him. He testified that he was a victim of his wife's "mother-in-law" who was too much for him.

They Speak For Themselves

San Francisco, Nov. 21, 1909. Dr. Wong Him, 1225 O'Farrell street, San Francisco. Dear Doctor—After suffering for a number of years with Bright's Disease and other troubles, I came to you for an examination and treatment. You gave me a course of treatment, and I feel entirely cured of my trouble. I have gained 30 pounds. I tender you my most sincere thanks, and remain, yours, MRS. E. THOMAS, Antioch, Cal.

Callum Bill Fixes Auto's Speed Limit

ALBANY, N. Y., March 11.—The Callum bill, which fixes the speed limit for automobiles, was reported favorably by the Senate committee on highways today. The bill provides for the annual registration of machines with a graded fee, licensing of chauffeurs and new speed provisions. Cities may fix their own speed limits, but smaller cities and incorporated villages must not make the limit below fifteen miles an hour. In the country districts speed above thirty miles an hour is held presumptive evidence of unsafe driving.

Football Abolished Because of Dangers

BLOOMINGTON, Ill., March 11.—The student body of Illinois State Normal University was started yesterday by the announcement of President David Pollock that the faculty had decided to permanently abolish intercollegiate football because of the physical danger and the loss of scholarship of those connected with the sport. Recently baseball was also abolished.

Allows Family \$250 From Rising Estate

An order for a family allowance of \$250 a month was made by Judge Wells from the estate of the late W. B. Rising, professor at the State University. The showing was to the effect that the estate exceeded \$500 a year and that the amount provided for was no more than adequate for the family support.

OLD AGE REASON FOR MARRYING

Alameda Couple Past the Half-Century Mark Decide to Wed.

ALAMEDA, March 11.—"As we are both getting along in years we decided to wed. This statement was made today by Mrs. Herta Kraut, 50 years of age, who is to marry Captain Nels Anderson, 65 years of age, on Easter Sunday, in the Danish Church in San Francisco. The captain, although past the half-century mark, is still hale and hearty, has made his home with Mrs. Kraut, a widow, for many years and a long friendship has ripened into love. Their ages is thought by the couple to be a reason for their marrying instead of a detriment, as is generally thought.

SAN FRANCISCO, FRIDAY, MARCH 11, 1910—TWENTY-TWO PAGES.

No. 70.

ALL NEWSPAPER RECORDS BROKEN

To-day, Friday, March 11, 1910, the circulation of the daily "Examiner" passed the 100,000 mark.

There is not, and the records of journalism will show that there never has been, a newspaper published in a community of the size of San Francisco which has won for itself a position of such eminence.

All past achievements of all the newspapers which have striven for the glory of success are out-distanced by "The Examiner," which, in spite of fire, panic, and a plague of depressing local conditions, has marched steadily onward to a position that no paper, under the most favorable auspices and with a like constituency, dared hope to attain.

"The Examiner" Has a Larger Circulation Than Any Other Morning Newspaper in the United States That Sells for More Than One Cent a Copy, With the Exception of One Newspaper in Chicago, Which Sells for 2 Cents.

The Six States Printed in White in the Accompanying Map Are the Only States in the Union in Which Newspapers, Morning or Evening, Sold at Any Price, Have a Circulation Equal to That of the San Francisco "Examiner."

A LITTLE TALK ON CIRCULATION

WHEN we say that the circulation of the Daily "Examiner" has passed 100,000, we do not take into consideration the Sunday, and we do not mean the "daily average."

The ordinary reader doesn't know what "daily average" means and a great many advertisers don't know it, either, but it is a very familiar phrase in the business and newspaper men understand it thoroughly.

When, as a rule, a newspaper publisher tells you that his paper has a certain circulation, you are at liberty to guess what he means, but what he really means is that its "daily average" is the sum he mentions.

And here is what "daily average" means.

The circulation of the daily (week day) "Examiner" is now over 100,000.

The circulation of the Sunday "Examiner" is 183,500. We are very proud of our enormous Sunday circulation, but we are not discussing that at this time. We are showing you how to figure "daily average," which is the story other newspapers tell you.

Take "The Examiner's" circulation for a month of thirty-one days, including five Sundays, and you will have the following simple problem in arithmetic:

26 weeks days at 100,000	2,600,000
5 Sundays at 183,000	917,500
Divided by days 31	3,517,500
Daily average	113,467

Now you know what "daily average" is, and if "The Examiner" talked of circulation in the same equivocal way that other newspapers do it would say, "Our circulation is 113,000."

But our books are open.

We have no circulation secrets.

Because we do not talk "daily average" you can do in "The Examiner" office what you cannot do in the office of any other newspaper in San Francisco—you can examine the records and satisfy yourself.

WHAT THIS MEANS

TO win such a success is, of course, more gratifying to "The Examiner" than to others, and yet it means much to San Francisco and ought to be the boast of every man who "boosts" for the city.

It has been a mighty short time since the whole world was grieving because we had been burned out. There were not a few who thought that the smoking ruins were a mourning monument to the end of what was once a city. Growsome prophets the world round regretted the passing of great old

San Francisco, but foretold how futile would be the efforts to restore it.

Four years have not passed, and yet an institution which is so closely knit up with the community that it can only thrive when the people prosper and must suffer when they suffer has outstripped all past performances and set a new record for the world.

A newspaper is the best thermometer of a community. When the community is prosperous, the mercury of the newspaper circulation rises.

No newspaper can be successful in a failing community, for a failing community cannot support it.

Clearing house records are good; shipping statistics are excellent, but there is no statement that could go out to the world which will so unquestionably demonstrate that San Francisco is greater than ever as the one we publish to-day that "The Examiner" has broken all records and to-day enjoys the greatest circulation ever won by any newspaper in a community of equal size.

In Only Six of the Forty-Five States in the Union Is the Daily or Sunday Circulation of "The Examiner" Equaled by Any Newspaper.
